## OIL and GAS NEWS

I. J. Willingham, who is interested in the Fox Pool Oil company is here from Dallas.

Luther B. Smith, who has royalty interests at Healdton, was here today from Marietta.

F. W. Holder of the Marian Machine and Foundry company was here yesterday from the fields.

P. T. O'Herrin, who represents B. B. Jones, returned yesterday from the fields and left last night for Oklahoma City.

The 1914 Oil company spudded two wells yesterday. They are Nos. 6 and 8 on the Colbert lease, and both are in section 21-3-3.

Two offsets are to be drilled right away to the Jennings well in section 13-4-3. It is said that contracts for the rig have been let.

E. A. Reimold of the Success Drilling company returned here yesterday from a visit at Tulsa and left this morning for the fields.

H. N. Cole of the Twin State Oil company is here from Tulsa looking after the interests of his company and visiting with the Healdton manager, J. E. Rine.

R. H. Jones is on a deal for the purchase of a producing lease in the Healdton field.

Magnolia Petroleum company is spudding No. 2 on the Ward lease in section 1-4-1 in Jefferson county. The well is one location south of No. 1 on the same lease.

Lawrence Gas company has its third steel tank completed and ready to receive oil. The company is now drilling its Nos. 15 and 17 and both are about 500 feet each.

Gypsy Oil company has moved the tools in to location No. 1 on the Mattie Morris lease in section 28-2-3.

in the Fox district. Drilling will be begun now within a few days.

Frank Jennings of Oklahoma City and E. L. Larsh of Norman were here today en route to the fields. These gentlemen are interested in the Jennings Petroleum company.

Gunsburg & Forman are building a rig in section 6-4-3 to offset the southwest corner of the Ward lease, owned by the Carter company. This is the farthest southwest location in the field.

Hivick & Moler, who have the drilling contract for the Fox Pool Oil company in section 5-2-3, have not begun drilling. This well will be started about the same time that the Gypsy company will start its No. 2 in the Fox district.

The Healdton Oil and Gas company, which owns a rice lease in section 21-3-3, sold 55,000 barrels of oil to the Producers Refining company and it will be shipped to Gainesville. The price is said to be five, which is a premium of 15c above the posted price.

Some of the producers are expecting that the posted price will not go any higher. So many purchasers are in the field that there is a chance that the posted price will be removed and there will be a scramble on for oil. The fellow paying the most will get it.

### Building New Home.

E. H. Boyer, superintendent for the Dundee-Crystal companies, was here yesterday. Mr. Boyer recently let his home in the field and is building another. His new home is a very nice bungalow, and will be ready to be completed now within a few days.

Carter Oil company has a rig under construction at location No. 20 on the Ward lease in section 6-4-3. No. 21 on the same lease has a rig up and the well is spudding. No. 24 is an offset to Magnolia No. 2 on the Ward lease in section 1-4-1. No. 25 on the Carter lease is also being spudded in.

### The Bynum Well.

Frank Saxon, who has charge of the drilling on the Bynum well south of Wilson, was here yesterday. He is encouraged over the prospects and stated to parties here yesterday that he believed the drill is now on a cap rock. This well has had oil and gas showings all the way down and there are good prospects that a new pool will be opened by that well.

### Deserve Pullman Service.

Every member of the Ardmore Community Club ought to write a letter today asking the Santa Fe to put on a Pullman between Oklahoma City and Ardmore. Every man from this town who visits Oklahoma City should call up J. R. Cunningham over the phone and ask for Pullman service for this town. Such a car would not only give service to Ardmore and to the oilmen who are coming here, but it would be worth much to those coming in here on the Rock Island, Frisco and Rocking roads.

### Oklahoma-Louisiana.

J. H. Enstam and William Sebastian of Shreveport, who are drilling the Oklahoma-Louisiana well in section 7-2-2 have not completed arrangements for deeper drilling. It is probable that a deal will be made to make the test a better one. The drill is in blue shale at 2,000 feet, and the hole should not be abandoned. The land owners in the section ought to take enough interest in the drilling to make it a better test. That country looks too good to be condemned with a hole no deeper than 2,000 feet.

### Two Active Companies.

The Dundee-Crystal companies have completed No. 8 on the Mullen lease in section 1-4-3. It had a production of 292 barrels. No. 9 on the same lease also has been completed and it has a production of 187 barrels. Same companies have completed No. 1 on the Keck lease in section 5-4-3 and it made 108 barrels. Richards No. 6 in section 9 is being drilled. Myllen No. 10 in section 4 is being rigged up. Millon & Thomas No. 12 in section 5-4-3 is being rigged up and drilling will be started at once. These companies have not finished their power plant on the Mullen lease and when the plant is finished and put in operation, it will increase the production materially.

### MUCH INTEREST MANIFESTED.

Sale of Oil and of Oil Stocks Yesterday — Big Oil Interests.

More interest is being manifested in Healdton now than ever before. There were present yesterday men from as far west as the Golden Gate and from as far east as Boston. William H. Blood, Jr., and G. C. England were here from Boston. They are representing the Stone & Webster interests and are looking for investments at Healdton. These gentlemen, with other prospective investors from New York, Muskogee and Wichita, started for the fields but came back on account of the bad condition of the roads, and this morning a slow rain was falling, and they have all gone. Mr. England went to Texas and Mr. Blood returned to Boston. Stanley L. Smith of New York went to Muskogee where he will spend a few days with his brother, and he will be back in the field by the end of the week. Rees Evans of Muskogee will remain here and will represent them. He is probably in the market for Healdton production or would buy good looking stuff in the new Fox district.

A nice bunch of the Bullhead stock and also of the Bayou stock changed hands yesterday, although the controlling interest in neither company was transferred and there will be no change of management.

The Healdton Oil and Gas company

these days fields that have been abandoned will be big producing areas.

The pipe line capacity of the field is sufficient to take care of the production. The Ardmore refinery has a four-inch line, the Collins is building a four-inch line, the Twin State has a three-inch line, the Producers Refining company has an eight-inch line, the Magnolia Petroleum company has two six-inch lines, and the Transocean company is building an eight-inch line.

### IS NOT BUYING OIL

J. E. Wade Corrects Report Sent Out From Ardmore.

James E. Wade, secretary and treasurer of the Ventura Oil and Gas company of Tulsa, has sent The Ardmoreite the following letter, with request that it be published.

The letter is self-explanatory, and is given here:

"Editor Ardmoreite:  
"To correct a rumor from Ardmore that I am buying oil in steel at Healdton, I wish to state that I am not making any offers and at present would not buy oil in steel at any price.

"If present conditions continue, there will soon be plenty of steel tanks for sale at Healdton.

"J. E. WADE"

Wanted to Buy—Production and royalties from owners only. Box 993, Muskogee, Okla.

### Lands for Lease.

I will lease the following lands for oil and gas if price is sufficient. None but responsible persons need apply. Will lease separate tracts.

26 acres in northwest quarter of section 1, 2-5-3.  
800 acres in Section 19, 20, 2-5-3.  
50 acres in Section 20, 2-5-3.  
75 acres in Section 1, 2-5-3.  
80 acres in Section 1, 2-5-3.  
100 acres in Section 2, 2-5-3.  
120 acres in Section 12, 2-5-3.

All located in Stephens county, Oklahoma.

J. M. ROBBERTSON,

3-12 Leola, Okla.

### Attention Woodmen Circle

Assessment No. 248 for January is past due. If you are suspended, give this your immediate attention.

# But That Is Not What I Asked For

was a woman's polite reply to a dealer who tried to convince her that the article he was about to wrap up was "Just the Same" as the one she asked for.

This woman was an intelligent buyer and she knew what she wanted and insisted on having exactly what she asked for and not a "Just as Good." The dealer had wasted considerable of her time and had offended her by his deliberate attempt to trick her. Naturally she never returned to that store, and the dealer lost her patronage.

If you had been in this woman's place, what would you have done? How many times have you entered a store with the intention of buying a certain brand of article, but were persuaded to "try" something else "Just as Good?"

It is just as important to have the ability to BUY intelligently as to have the ability to EARN money to spend. Eliminate the waste in buying by accepting only articles of well-known merit, and thus reduce the high cost of living.

Patronize the dealers who give good service and carry in stock the articles you see advertised. Ask for trade-marked brands and bear in mind this slogan—

# Get What You Ask For

In conformity with a recent law, we will in the future discontinue the practice of allowing overdrafts. Our customers will confer a favor on us, if they will be careful and not write checks over-drawing their accounts.
